Guide

VerbNoun Portal

Client

March 8, 2018

VerbNoun Portal allows you to compare the modern technology tools of SDN, IaaS and DevOps by the Business, Technical and Governance requirements and optimally select them for projects of Xentaurs.

VerbNoun Portal allows you to make this comparison in VerbNoun table, compiled in VN-Designer using data from Dictionaries.

Client can open view and download VerbNoun's and download the manual.

Table of contents
